The amendment strikes the underlying bill and its associated fiscal impact. The amendment results in a savings to the state from a reduction in the annual actuarial determined employer contribution (ADEC) for the State Employees’ Retirement System (SERS) by eliminating overtime from the definition of salary for the purpose of calculating the SERS benefit for employees who retire on or after July 1, 2027.

SERS benefits are currently governed by an agreement between the state and the State Employees’ Bargaining Agent Coalition (SEBAC) until 2027. To the extent the provisions of the amendment are adopted, the impact will be reflected in the annual actuarial valuations completed for the plan which establishes the ADEC for each fiscal year. An analysis of a similar proposal based on the June 30, 2016 valuation resulted in annual savings of between $25 million to $60 million for the period FY 18 to FY 47.
