The amendment strikes the underlying bill and its associated fiscal impact.

The amendment requires that various state agencies jointly develop a fee structure to permit 5G providers to use state real property for siting infrastructure. There is a revenue gain to the resources of the General Fund resulting from any fee structure used to charge companies. This revenue gain will vary based on how many companies apply for use and the fees adopted, which are not specified in the amendment.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge.
