**Municipal Impact:** None

**Explanation**

Section 501 of the amendment results in a state cost of at least $100,000 in FY 20 and $102,000 in FY 21 to the Department of Social Services (DSS) associated with increasing the rate paid for Meals on Wheels under the Connecticut Homecare Program for Elders (CHCPE).\(^1\) The amendment allows DSS to further increase fees for providers with extraordinary costs related to delivery of meals in sparsely populated rural regions.

It is anticipated that section 502 of the amendment, which makes changes to certain information the Department of Rehabilitation Services must review, does not result in a fiscal impact.

Section 503 requires the Department of Public Health (DPH), as part

\(^1\) While the amendment does not specify the Consumer Price Index (CPI) that must be applied to the reimbursement rate for Meals-on-Wheels, this estimate assumes the calendar year increase in the CPI for urban consumers (CPI-U).
of its quality of care program for licensed health care facilities, to develop recommendations on collecting and analyzing patient malnutrition data to improve quality of care. It is anticipated that DPH will be able to convene the Quality in Healthcare Committee to review available patient malnutrition information to develop such recommendations without incurring a cost to the State or municipalities.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst’s professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
