Explanation

The amendment strikes the underlying bill and its associated fiscal impact resulting in the following impact. The amendment makes various changes to the Liquor Control Act and results in various revenue gains and costs to the state described below.

Revenue Impact:

- The amendment consolidates various liquor permits and results in a revenue gain of $800,000 to $900,000 starting inFY 21 dependent on which permits are applied for in the future.

- Section 19 results in a revenue loss of up to $120,000 for granting restaurant permittees the same privileges as the caterer permit for no fee. The total revenue loss will be dependent on how many of the current 268 caterer permits are restaurants and will no longer have to pay for this permit.

- Section 1 requires a manufacturer permittee for beer to pay the Alcohol Excise Tax for beer sold for on-premises consumption for amounts over 15 barrels, which results in an estimated revenue gain of at least in $25,000 in FY 20 and at least $50,000 in FY 21 and annually thereafter.

- Section 6 allows gift basket permits to include beer and results in a potential revenue gain of under $2,500 per year starting in FY 21. In FY 18 there were 11 of these permits issued (a permit costs $200) and it’s anticipated this change will generate 10 or fewer new permits per year.

- Section 26 creates a new out-of-state retailer shipper’s permit for wine and results in potential revenue gain to the extent this new permit is applied for ($600 per permit).

---

3 The bill does not specify if this is an annual or lifetime limit.
Cost Impact:

- Section 26 creates an out-of-state retailer shipper’s permit for wine and results in a cost to the Department of Consumer Protection (DCP) of $158,141 in FY 20 and $165,932 in FY 21 (costs include salary and benefits). DCP will have to hire a processing technician and liquor control agent to process, enforce, and regulate the new permits. It is anticipated hundreds of new out-of-state retailers will apply for the new permit.

  - To the extent that the bill generates numerous investigations and complaints, DCP will potentially have to hire one paralegal specialist costing $91,353 in FY 20 and $96,262 in FY 21 (costs include salary and benefits).

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst’s professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
