#### ***Explanation***

The amendment strikes the underlying bill and its associated fiscal impact resulting in the following impact. The amendment makes various changes to the Liquor Control Act and results in various revenue gains described below.

#### **Revenue Impact:**

- The amendment consolidates various liquor permits and results in a revenue gain of \$800,000 to \$900,000 starting in FY 21 dependent on which permits are applied for in the

future.

- Section 19 results in a revenue loss of up to \$120,000 for granting restaurant permittees the same privileges as the caterer permit for no fee. The total revenue loss will be dependent on how many of the current 268 caterer permits are restaurants and will no longer have to pay for this permit.
- Section 1 requires a manufacturer permittee for beer to pay the Alcohol Excise Tax for beer sold for on-premises consumption for amounts over 15 barrels,<sup>1</sup> which results in an estimated revenue gain of at least in \$25,000 in FY 20 and at least \$50,000 in FY 21 and annually thereafter.
- Section 6 allows gift basket permits to include beer and results in a potential revenue gain of under \$2,500 per year starting in FY 21. In FY 18 there were 11 of these permits issued (a permit costs \$200) and it's anticipated this change will generate 10 or fewer new permits per year.
- Section 26 creates a new out-of-state retailer shipper's permit for wine and results in potential revenue gain to the extent this new permit is applied for (\$600 per permit).
