Explanation

The amendment strikes the underlying bill and its associated fiscal impact.

The amendment results in savings to municipalities participating in the Connecticut Municipal Employee Retirement System (CMERS) by increasing the employee share of the pension contribution by 3% over six years (0.5% per year starting in FY 20). Total savings in CMERS employer contributions are estimated to be $3.4 million in FY 20; $7 million in FY 21; and $11 million in FY 22; $15.2 million in FY 23; $19.7 million in FY 24 and an annualized savings of $24.6 million in FY 25 when fully phased in compared to current law.\(^1\) The employer

\(^1\) Based the most recent available CMERS actuarial valuation as of July 30, 2018. Assumes total contribution rate and benefit structure remain constant.

Contributing Analyst(s): ()
contribution rates for FY 20 were established in June 30, 2018 valuation, therefore savings will not be realized by municipalities until FY 21 at the earliest unless a revised June 30, 2018 valuation is issued. The savings for FY 21 will be reflected in the employer contribution rate reported for FY 21 in the June 30, 2019 valuation. The savings in FY 22 through FY 25 and thereafter will be reflected in the employer contribution rate reported for in actuarial valuations for the system starting with the June 30, 2020 valuation.

The retirement system currently has 10,096 active members (5,874 with social security and 4,222 without social security).
