

Dear Environmental Committee,

2/20/2020

I support Polystyrene (SB 99) to restrict the use of polystyrene products across the state. Polystyrene is a problem. It does not biodegrade. It cannot be recycled. It is dangerous to animals that accidentally eat it. It may even be dangerous to people by adding toxins to hot drinks and food. It is time to switch to safe biodegradable options.

I support Environmental Justice (HB 5103). All children should have the right to breathe clean air. This is not currently the case in Connecticut.

I support Long Island Sound Blue Plan (HJ 1) to protect Long Island Sound.

I support Wildlife Trafficking (HB 5104). We/Connecticut should do our part to protect endangered African animals.

Thank you for your time,

Susan Cote-DeMilia
