To the Environment Committee

I am a member of the Sustainable Trumbull Team. We are currently completing our tasks from the Sustainable Ct initiative and are also beginning to more fully educate our residents about the importance of going green and the implications of things such as single use plastics and recycling in our town as well as the dangers of pesticide vs. organic methods. We all need to be much more diligent of how we treat our environment.

As I am unable to be at your committee meeting on March 6<sup>th</sup> where you will be discussing "waste management, recycling and other miscellaneous environmental bills," I wanted to write to please ask that you support and advocate for the bills listed below, as well as others, that would make us a more sustainable, green state.

Thank you for your time and the work that you do for our state.

Mary Isaac
