To whom it may concern,

It seems to me that if our state government really wanted to stop crime in Connecticut, that laws would be proposed to punish the law breaking criminals. But not Connecticut DEMOCRATS. You folks have to punish the honest citizens of this State by proposing a 35% FINE against any citizen who wishes to purchase ammunition and exercise their Constitutional SECOND AMENDMENT and our Connecticut Article 1 section 15 right to bear arms in their own defense and the state, and to just enjoy target shooting or hunting. I ask you for how many of our Constitutional rights are citizens required to pay a punitive fine in order to exercise that right? Only DEMOCRATS have ever attempted to pass such treason as this ammunition tax into law. I say treason because the Constitution of the USA and the state of Connecticut establish the boundaries within which government is allowed to operate. Violations of those boundaries are treason. I expect better things of you all than this.
