Brian
This is notice of my opposition to HB 5040, the insane bill to punish law-abiding Connecticut residents with an absurd tax of 35 per cent on ammunition. And even worse, the proceeds will be given to gun control advocates. Most gun owners that purchase large amounts of ammunition will simply buy it out of state. While out of state, they may as well purchase their liquor, also. I suppose our governor will also want to tax Catholic churches to fund abortions. It's no wonder Connecticut residents are leaving the state. Something you should really consider is replacing our governor!
