Dear Committee,
Please oppose bill 5040. This is unfair tax on law abiding recreational shooters, hunters, and small business. As you are already aware this bill will not stop gun violence and until we deal forcibly with those who commit crimes against another person this behavior will not end. How about a Federal mandatory 10 year prison sentence for those who commit robbery or use a firearm to harm another individual and the death penalty for manslaughter using a firearm in the act of committing a crime?

Regards,
Kurt Bogner
