I am writing in opposition to proposed bill #5040. I believe that imposing a special tax on ammunition is discriminating to legal gun owners who have done no wrong. This is designed to make it more expense for one to buy ammunition, thus reducing their ability to practice to protect themselves.

Instead of going after law-abiding gun owners, you need to set your focus on the criminal element in CT. As to the 4 cities, the funds would supposedly go to...it is time to talk (and work) with law enforcement to see where the problem areas are and start an aggressive program to reduce the violence in those cities.

We already have laws on the books, time to enforce those laws and to get rid of the laws that go easy on criminals...especially repeat offenders.

Leave law abiding residents alone! I encourage you to reject this unconstitutional proposal.

Sincerely,

Jen Ezzell
