Please record my testimony on this HB 5040. I am strongly opposed for the following reasons:

1. Punitive for law abiding citizens. Criminals can't buy ammunition!
2. Prevents safety training. Isn't this what the state requires?
3. Stimulates UNSAFE driving conditions. Ammunition buyers WILL travel to RI, MA or NY to buy ammo. 100% guarantee. This will generate traffic on roads, increased greenhouse gas, potential accidents and a LACK of tax revenue for the state.
4. A business killer! Retail, both large and small stores will be hurt by this bill. Certainly you should not be supporting Bills that suppress lawful business in the state of CT.

The last point being the most important. This Bill, is an infringement on law abiding, safety conscious citizens.

Thank you,

Garrett Friedrichsen
