Please do not support house bill JB5040. Taxing honest citizens an excise tax for ammo is ridiculous.
People who lawfully buy ammo legally aren’t an issue. Illegal guns and ammo in the hands of violent people is.
Bad people do bad things. We should not punish good people for what the bad people do.
The first step is to identify the problem.
“Violent people”
Prosecute bad people. Stop the violence when they are young and they will not carry the hate to adulthood. Fix the problem, not the blame.
