Good day
This is my testimony of how excessive tax on gun ammunition effects my life in ct.
Your new proposed tax is so over bearing for me.
This tax will once again be directed to end my abilaty to protect myself from preditors.
These preditors can and will show up in the form of car jacking my transportation with life inside
killing of family during muggings, entering my home for there benefit at the cost of family life.
This violence is wrong. Family, Friends and Neighbors must live without the fear of being hurt.
with this new proposed tax in place, you will be helping only dangerous thugs to live without fear.
My heart will sink to know you would legally steal my paycheck and money to support a government
supported gun disarment for only the poor while not effecting the rich.
SHAME ON THIS HORIBLE MISJUSTACE  THANK YOU FOR YOUR TIME.
