Do you tax gas to combat drunk drivers or cell phones minutes to stop people that txt or drive while talking or opiates to stop drug overdoses! The people that go out and kill don’t care about the laws or taxes. We legal gun owners have a license that we paid for to buy ammo the people going out to kill are getting their guns and ammo from circumventing the system. All your going too do is cause people to drive out of state to get ammo! So not only are you going to loose tax money you are going to help the increase in our carbon footprint and pollution!
