I am writing in strong opposition to HB5040, the ammo tax.

This proposal clearly shows that despots in government will abuse their power against anyone they disagree with.

In this case they are trying to punish a group of law abiding citizens exercising their constitutional right, whose recreational choice they don’t like.

This is an act of vindictive despotism, and must be defeated if we are to retain our freedom under the Constitution.

If this bill were to pass what precedent would this set? Anything the incumbent powers disapprove of could be punished in the same way. Just imagine where that could take us!!

Please do not take this unfair, unreasonable, vindictive and clearly unconstitutional step.

Please vote no!!

David Roberts.
