To whom it may concern,

Recently I became aware of proposed bill 5040 that would impose a 35% tax on ammunition. I am completely against this bill. Connecticut already imposes an array of gun control laws, and this bill would make it even harder to practice legal firearm ownership. It would provide nothing in the way of public safety, having no effect on criminals at all. Ultimately, it only serves to hurt law abiding Connecticut citizens.

Thank you for your time,

From Richard Vollmer
