Since the shooting sport is but, one of the many sports Connecticut citizens enjoy, I don't understand why this sport should be singled out for a special tax.

Being fair ...... If the state is in such dire need for revenue ALL SPORTS EQUIPMENT should be equally taxed.

Jimmy's baseball and bat, Kathy's ice skates, Frank's basketball, Bill's skies and Lenny's golf clubs but, to name a few.

The revenue generated by taxing ALL SPORTS EQUIPMENT at 35 % would certainly help fill the state treasuries without imposing tolls.

Let all sports participants (without exemption) enjoy the added cost of their enjoyment as much as the shooting sports participants would.

I would support such a proposal to TAX ALL SPORTS EQUIPMENT regardless of the sport.

Respectfully,
