

I am writing in support of no. 5109: An act exempting breastfeeding supplies from sales and use tax.

As a pregnant woman in my third trimester, I am preparing to bring a baby into this world and plan on breastfeeding because of how beneficial it is for baby and mom. There are many supplies breastfeeding mothers need. My health insurance covers the cost of the pump, but I need storage bags, breast pads, and much more. These essential supplies should be exempt from sales tax, just like formula is. Every mom wants to do the best she can for her children, and making these items exempt from tax can help moms with the overall cost.

Thank you,  
Jeanette Gangi
