

Elected officials,

I am in opposition of S.B. 274 . I am at loss, what is the reason this is being considered ? The fact that pp was offered full funding if they would stop performing abortions and provide healthcare ,but instead, chose to be the largest provider of abortions in the country. This sound like a business decision to me not a financial crisis, abortions are where the money is.

My second reason is legal as elected magistrates you have a responsibility to the citizens of the state of Connecticut to spend our money wisely not give away to organizations you feel didn't get enough from the federal government.

My third reason is moral, to put it bluntly abortion is not healthcare we all know its a baby that is aborted, a baby with unique dna and fingerprints. If a mother drowned her 1 day old baby because - cried, she needed to go to school, made a mess - you get the idea you would have her arrested for murder. Murder in the womb whether by dismemberment limb by limb, sucked out with a high velocity vacuum, or chemically burned to death is just as hideous. Abortion is murder!! I will say it again abortion is murder!! God hates the shedding of innocent blood, as legal magistrates you will stand before a Holy and Righteous God, I am calling on you to repent, for you will be held responsible. Jesus is the way,truth,and life in Him only will you find forgiveness for keeping the sin of abortion legal.

I'm calling on you to abolish abortion stand up and vote
this bill down and let this be the beginning of the end to
abortion in Connecticut.
