

Dear Representatives and Members of the Human Services Committee,

I am contacting you in opposition to sb-274, funding for Planned Parenthood.

As a human I cannot support forcing taxpayers of varying beliefs on abortion, for such a controversial and frankly barbaric institution to financially support said institution.

Considering the exorbitant amount of taxes that have been placed on Connecticut residents and our transportation system debacle... Sending millions to Planned Parenthood is for lack of better words a "slap in the face" of your constituents.

Please do not vote in favor of this bill.
