

ATTN : Human Services Committee

I OPPOSE SB 274 – public funds (taxpayer dollars) should in no circumstances now or in the future be allocated to fund Planned Parenthood or any other reproductive health services company. Let them function as a normal business, do not subsidize them on the backs of taxpayers, many of whom (50%) object to their overall philosophy and mission as a company. Abortion is one of the most contentious topics of our time, and to allocate public funding for its continuation is an abuse of power and misallocation of funding.
