

Concerning [SB 345](#), AN ACT REQUIRING THE INSURANCE COMMISSIONER TO STUDY AND REPORT ON ISSUES CONCERNING CLIMATE CHANGE. The bill directs the CT Insurance Commissioner to conduct an annual study that will report on the fossil fuel investments of insurance companies in the state, the underwriting of fossil fuels by insurance companies, and if the companies have assessed the climate risk of these investments.

I do support requiring the commissioner to conduct annual studies concerning the fossil fuel impact of CT insurance companies' underwriting and investments. CT definitely needs to collect, and act appropriately on, as much information as possible, at this critical time.
