

I am writing to ask you to please support and pass SB 113.

My wife is an adoptee and I believe all people have a right to information about themselves. She as well as our daughters and grand daughters are entitled to know their full background Information especially medical records.

We've been married 38 years and I've seen the emotional distress of her feeling she wasn't wanted by her birth mother or her adoptive one. She's had a very hard time as a result of the fact her adoptive mother and her never had a close relationship.

I understand the fact that laws in the past have provided anonymity for the birth parents but truly believe the laws need to be updated to reflect society today. My wife has struggled her entire life with a feeling of not belonging. She is the most trustworthy, sweetest, loving, caring individual you'll ever meet and deserves some closure in her life. She struggles occasionally with medical issues that some family history might help to diagnose as well.

It is for these reasons I think you should support SB113. Thank you for your consideration.

Regards,

Scott Anderson
