

PLEASE support and pass Senate Bill 113. I am an adoptee, and have struggled since I was 14 years old with a Seizure disorder. Having access to my Birth Certificate and being able to have information about myself, the same as others do, would have profoundly effected my health and safety. Without it, I was and am unable to review my medical history with birth parents. The same goes for my children. We have nothing to go on! All people have a right to their birth records! Again, please pass this bill!
