Please support and pass SB 113. I am a birth parent and feel that there comes a time in the life of the adopted child that they should be able to have access to their personal records. Birth certificates, like adoption records should be made available.

I am one of the blessed birth parents who have been reunited with birth daughter. It has been slightly over 1 year now and I am beyond thankful for her loving parents who raised her and provided her with the love and nurturing that she displays every day. It was through DNA testing that we have connected. This is one piece of her that she and I can cherish.

Her original birth certificate is another piece that will be part of her tapestry of life. It should be her choice to seek it out and not be denied this document that is the beginning of her life and part of her journey. This is her choice and it should be made available to her.

Please support and pass SB 113. The love and the completeness that she and I have experienced can be an experience for many others too.

Thank you

Marie Bosson
