**Subject:** Support for SB 113

Hello.

I am writing in support of this bill that will provide adopted persons full access to their original birth certificates.

This vital information should not to be kept from the very person noted in the record.

Please do not accept "birth mother" privacy as a reason. I was never promised, nor did I want or expect privacy. I was elated when my son found me through a direct parent-child DNA match. He contacted me right away, contact I had waited and hoped for the entire 42 years we were separated. The bond is too sacred to remain severed.

Thank you for your consideration.
