To Whom it May Concern:

My name is Michelle Faraci and I am an adoptee. I am asking for your support on this matter because I know how difficult it is to obtain information for important issues.

For example, when I go to a doctor or specialist for the first time, I feel a little lost when it comes to the part of the intake questionnaire about family health history. I leave that part blank.

However, if I was granted access to my records, it would take the guesswork out of what my doctors could do to provide the best care.

So many of us are in the same situation. We try to get all the information for our own benefits that we can and still come up short. If you support Senate Bill 113, you could help adoptees in their quest for their health history.

I hope that my testimony will help you make the decision to support Senate Bill 113 so that all adoptees could have access to their records.

Sincerely,

Michelle Faraci
Adoptee
