

Please support SB 113 and restore the constitutional right of similarly-situated persons to be treated equally under the law. It's 2020 and it's been time to modernize the law. I'm an adoptee and know what it feels like to be denied the most basic information about oneself. The state has no basis to continue to keep secrets from adults - since there is no longer any role of protecting children.

Sincerely,
K. McGlone
