

I am writing today to ask that you please support and pass bill SB 113. I am an adoptee and have lived my whole life wondering about who my birth parents were and what their story was and why the decision was made to give me up. Although I had a wonderful life with a mother and father that adored me and gave me the perfect upbringing I have always had questions. One other thing that has always been a concern for us older adoptees is a full health history. I have none. Don't I have the right to know my health history as you do? Don't I have the right to know my history in general as you do? I am only asking for what you have known your whole life. Please pass bill SB 113. Thank you for reading my testimony.
