I am writing to ask that you please support and pass SB 113. I am an adoptee.

It took many years and many dollars to eventually find my birth father through dna testing. I have now learned that because of my ancestry (of which I am very proud), I and my children are at an elevated risk for genetic diseases, among them, Tay Sachs. Now my children can be sure to be tested for being carriers of the genes that cause this or other horrific diseases. How heartbreaking it would have been to discover it too late. Please allow adoptees the right to know their own medical backgrounds.

Sincerely,
Dawn Sagar
