On Tuesday, the 29th day of September, 2020, in accordance with the Call of the Governor, the House of Representatives convened in the House Chamber in the State Capitol at Hartford at 11:39 o'clock a.m., in Special Session.

The House was called to order, Speaker Joe Aresimowicz in the Chair.

Let us pray. Dear God, bless us as we come together for this Session and give us the strength and patience as we stand in the people's house to make decisions that will benefit our faithful constituents. Amen.

The Pledge of Allegiance was led by Representative Ritter of the 1st District.

The reading of the Call of the Session was waived, and the Speaker ordered that the Call be printed in the Journal.

The following is the Call:

### **A PROCLAMATION FROM HIS EXCELLENCY**

#### **THE GOVERNOR**

**WHEREAS**, on March 10, 2020, I issued a declaration of public health and civil preparedness emergencies, proclaiming a state of emergency throughout the State of Connecticut as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and Connecticut; and

**WHEREAS**, on September 1, 2020, I renewed the March 10, 2020 declaration of public health and civil preparedness emergencies and also issued new declarations of public health and civil preparedness emergencies, which new and renewed emergencies shall remain in effect until February 9, 2021, unless earlier terminated; and

**WHEREAS**, COVID-19 is a respiratory disease that spreads easily from person to person and may result in serious illness or death; and

**WHEREAS**, the World Health Organization has declared the COVID-19 outbreak a pandemic; and

**WHEREAS**, on August 4, 2020 Tropical Storm Isaias swept through the State of Connecticut and caused both one of the largest power outage events in Connecticut's recent history, impacting

more than 750,000 homes and businesses, and extensive damage across the State of Connecticut, including downed utility lines, fallen trees, road blockages, and damaged homes, buildings, and critical infrastructure; and

**WHEREAS**, on August 5, 2020 at 11:30 AM, Governor Lamont declared a civil preparedness emergency in response to the impact of Tropical Storm Isaias; and

**WHEREAS**, the extensive power outages had a disparate impact on members of certain vulnerable communities, including the elderly, those with serious health conditions, low and moderate income residents who could not afford to replace lost food and medications, and those experiencing increased financial hardship due to the economic impact of COVID-19; and

**WHEREAS**, after the storms of 2011, and the review of the public utilities' response to those weather events, there are still unacceptable failings; and

**WHEREAS**, Connecticut has the highest electric energy rates of any state in the continental United States; and

**WHEREAS**, on June 1, 2020 Eversource enacted a rate adjustment that, in conjunction with increased home electricity use due to the COVID-19 pandemic, resulted in residential electric bills that were considerably greater than in past months; and

**WHEREAS**, in response to thousands of complaints from Eversource's customers the Public Utilities Regulatory Authority ordered the suspension of the rate adjustment pursuant to its investigation; and

**WHEREAS**, performance-based regulation is a powerful tool for ensuring that the objectives of the public utilities are aligned with the public interests and the State's public policy objectives; and

**WHEREAS**, utility rates have risen during recent recessions, stifling economic recovery and harming, in particular, the many low and moderate income families for whom utility rates matter as much or than tax rates or transfer spending, including the many families in the State of Connecticut who spend more than ten percent of their income on energy costs;

**WHEREAS**, Connecticut's Public Utilities Regulatory Authority has only 180 days to review a request for a utility rate change, which is the shortest amount of time for any utility regulatory authority in the United States; and

**WHEREAS**, a longer review time for utility rate adjustment cases and changes of control would afford the Public Utilities Regulatory Authority a better opportunity to ensure the quality, adequacy, and cost effectiveness of the products and services provided by the public utilities; and

**WHEREAS**, the Public Utilities Regulatory Authority does not currently possess the statutory authority required to provide financial restitution to utility customers, or allocate civil penalties to non-profit agencies engaged in energy assistance programs, both of which would provide immediate, measurable relief to ratepayers for financial losses; and

**WHEREAS**, in response to multiple episodes of severe weather, heightened by the effects of climate change, that caused widespread power outages for extended periods of time, Connecticut's General Assembly, through Public Act 12-148, authorized the development of a microgrid development program designed to ensure that critical buildings remain powered during electrical grid outages; and

**WHEREAS**, the Department of Energy and Environmental Protection has conducted four requests for microgrid applications and awarded thirteen grants across the State to build

microgrids to support critical facilities to increase the resilience of these facilities in the face of an increasing number and intensity of storms; and

**WHEREAS**, eight of these microgrids are operational and are ready to respond should the critical facilities lose power as a result of an episode of severe weather; and

**WHEREAS**, in the aftermath of Tropical Storm Isaias, a lack of power caused partially-treated wastewater from the Plainfield Village wastewater treatment facility to flow into Packers Pond and the Mill Brook, a tributary of the Quinebaug River highlighting the need for broader resilience support for stand-alone critical facilities like wastewater treatment plants and infrastructure; and

**WHEREAS**, the historic placement of wastewater treatment facilities, transfer stations, and solid waste facilities near vulnerable communities has led to negative impacts on the health of these communities, and an increased investment in the resiliency of these facilities is necessary to prevent further negative health impacts during extreme weather events made more frequent by climate change; and

**WHEREAS**, to reduce the spread of COVID-19, the United States Centers for Disease Control and Prevention (CDC) and the Connecticut Department of Public Health (DPH) recommend implementation of community mitigation strategies to slow transmission of COVID-19, including cancellation of gatherings of ten people or more and social distancing in smaller gatherings; and

**WHEREAS**, the risk of severe illness and death from COVID-19 is higher for individuals who are 60 or older and for those who have chronic health conditions; and

**WHEREAS**, public health experts have determined that it is possible to transmit COVID-19 even before a person shows symptoms and through aerosol transmission; and

**WHEREAS**, a statewide general election is scheduled for November 3, 2020, to select candidates for various state and Congressional offices and for the office of the President of the United States; and

**WHEREAS**, absentee voting offers a proven method of secure voting that reduces the risk of transmission of COVID-19 by allowing individuals to vote by mail and by reducing the density of in-person voting at polling places; and

**WHEREAS**, in order to limit the transmission of COVID-19 while providing every eligible voter the ability to safely cast a vote, the General Assembly has previously passed, and I have signed, legislation that expands the availability of voting by absentee ballot in the November 3, 2020 general election; and

**WHEREAS**, public confidence in elections depends in part on an orderly process for tabulating ballots and the timely announcement of election results; and

**WHEREAS**, pursuant to section 10-283 of the general statutes, the General Assembly shall annually authorize the Commissioner of Administrative Services to enter into grant commitments on behalf of the state in accordance with a categorized listing for school construction projects as the General Assembly shall determine; and

**WHEREAS**, the Commissioner of Administrative Services may not enter into any such grant commitments except pursuant to such legislative authorization; and

**WHEREAS**, the current public health emergency has delayed consideration of a set of priority projects for this year and further delay in making commitments for such projects will likely result in higher costs to municipalities and the state; and

**WHEREAS**, school districts have received supplemental funding from federal resources as part of the national response to the ongoing public health emergency and such extraordinary one-time funding for COVID-related expenses should not be included in calculations related to a municipality's minimum budget requirement for purpose of the education cost sharing provisions under state law; and

**WHEREAS**, the reuse and redevelopment of contaminated property is critical to the state's environment and its economic recovery, as well as promoting environmental justice; and

**WHEREAS**, currently, hundreds of sites to be reused or redeveloped in the state are covered by the Transfer Act, Conn. Gen. Stat. 22a-134 to 22a-134e, inclusive and 22a-134i and 22a-134j; and

**WHEREAS**, the Transfer Act has been found to have a number of deficiencies, including requiring unnecessary expenditures which serve as an impediment to economic development; and

**WHEREAS**, only two states in the nation use laws like the Transfer Act to address contamination making Connecticut a less attractive place to do business, especially when compared to our neighboring or competitive states; and

**WHEREAS**, given the impediment to economic investment in the state was widely known, a legislative working group was convened last year, pursuant to Public Act No. 19-141, to try and make improvements to the Transfer Act; and

**WHEREAS**, Connecticut should join the 48 other states in the nation and utilize an approach to investigating and remediating contamination that is based on reporting of and responding to releases or a "Release-Based" program in lieu of the Transfer Act; and

**WHEREAS**, transitioning to a release-based remediation program will serve to hasten the state's economic recovery by, among other things, eliminating inefficiencies and increasing Connecticut's competitiveness with our surrounding and competitive states.

**WHEREAS**, the State of Connecticut established a hemp pilot program in 2019 that has grown to more than 175 registered growers, processors and manufacturers of hemp and hemp products, and is licensed to be grown on over 500 acres outdoors and over 1.5 million square feet indoors; and

**WHEREAS**, revisions to the existing statute are needed to comply with the United States Department of Agriculture's Interim Final Rules for hemp cultivation, issued October 31, 2019 in order for the hemp growing program to continue as a state-run program; and

**WHEREAS**, additional changes are important to improve the opportunities for growth of the hemp production and manufacturing industries in Connecticut; and

**WHEREAS**, no segment of the population should, because of its racial or economic makeup, bear a disproportionate share of the risks and consequences of environmental pollution or be denied equal access to environmental benefits; and

**WHEREAS**, residents have a right to be informed of proposed development projects that may impact their health and quality of life, a right to voice concerns about such projects, and an expectation that their concerns will be meaningfully considered in state permitting processes; and

**WHEREAS**, Connecticut's Environmental Justice Program can be strengthened by increasing community awareness and efficacy, including providing for agreements between developers and municipalities that mitigate health, quality of life, and environmental impacts; and

**WHEREAS**, Conn. Gen. Stat. § 31-53, the prevailing wage statute for the State of Connecticut, ensures that workers on state or municipal public works projects are paid at a rate equal to the rate customary for the same work in the same occupation in the town where such public works project is being constructed; and

**WHEREAS**, the Labor Commissioner is charged with predetermining the prevailing rate of wage in each town where such public works project is performed; and

**WHEREAS**, subsection (d) of Conn. Gen. Stat. § 31-53 provides alternative options for the Labor Commissioner to determine that workers are paid the appropriate prevailing wage; and

**WHEREAS**, the Labor Commissioner believes that there should be adequate protections in place if there were to be changes in determining federal Davis-Bacon rates;

**WHEREAS**, tens of thousands of homes in the State of Connecticut were built with concrete laced with pyrrhotite, a mineral that causes cracking when exposed to groundwater, and therefore may need extensive repair or replacement; and

**WHEREAS**, the Connecticut Foundations Solution Indemnity Company may only provide claim dollars for foundation repair or replacement, and those claims are capped at certain amounts, such that homeowners may need additional financial resources to complete repairs to their property; and

**WHEREAS**, one source of such additional financial resources is the Connecticut Housing Finance Authority's Supplemental Collapsing Foundation Loan Program, but current law prevents homeowners' associations from accessing that program and thus denies certain impacted condominium owners equal footing with other affected homeowners; and

**WHEREAS**, chapter 203 of the general statutes provides a variety of exemptions from the property tax and, from time to time, taxpayers may not file the requisite application to be approved for an exemption within the timeframe provided for under the law; and

**WHEREAS**, allowing the exemption from the property tax for such taxpayers may avoid an undue hardship or to otherwise promote economic activity in the town wherein the property is situated; and

**WHEREAS**, section 10-76g of the general statutes provides for deadlines for filing an application for a grant for the excess costs of special education; and

**WHEREAS**, some municipalities may, from time to time, fail to make timely application for such excess costs of special education; and

**WHEREAS**, Public Act 05-289 provided for a special taxing district to support development of the Steel Point project in the City of Bridgeport and such development is expected to provide significant benefits to the city and its people; and

**WHEREAS**, the taxing district was authorized for a limited time frame; and

**WHEREAS**, paragraph M of subdivision 2 of subsection 6 of section 14-10 of the Connecticut General Statutes permits the Commissioner of the Department of Motor Vehicles to disclose personal information from motor vehicle records to state marshals for use in the performance of duties under the provisions of section 6-38a; and

**WHEREAS**, section 14-50a of the Connecticut General Statutes authorizes the Commissioner to establish fees for such information furnished on a volume basis; and

**WHEREAS**, clarity regarding the state marshals' ability to pass through such fees to their clients is important for the efficient and orderly conduct of legal execution and service of process;

**NOW THEREFORE**, by the authority vested in me under Article III of the Amendments to the Constitution of Connecticut and Section 2-7 of the Connecticut General Statutes, I, in order to preserve orderly and decent government, do hereby:

Convene the General Assembly in Special Session in Hartford no earlier than September 29, 2020 at 9:00 a.m. to:
