Notice to Readers

This report provides brief summaries of the governor’s COVID-19 executive orders concerning education and child care. The governor declared public health and civil preparedness emergencies on March 10, 2020, in response to the COVID-19 pandemic. He renewed this declaration on September 1, 2020, while also declaring new states of emergency.

The report includes all related executive orders since the governor’s March 10 declaration, through December 28, 2020. Each summary indicates the Executive Order (EO) number and enactment date. Not all provisions of the orders are included. The orders are grouped by category for ease of reference.

Three additional reports summarize the governor’s COVID-19 executive orders concerning (1) business, labor, and housing; (2) health and human services; and (3) state and local government and elections. All four reports are available on OLR’s website: https://www.cga.ct.gov/olr/. The reports will be updated promptly as the governor issues new related orders. For additional OLR reports on COVID-19 related policy topics, visit the dedicated OLR COVID-19 page.

Readers are encouraged to obtain the full text of the orders, and related state agency actions taken in response to the COVID-19 pandemic, from the governor’s website: https://portal.ct.gov/Coronavirus/Pages/Emergency-Orders-issued-by-the-Governor-and-State-Agencies.
Effective Period for COVID-19 Executive Orders

On September 8, 2020, the governor issued EO 9A, which reissued all executive orders made under the March 10, 2020, declaration of public health and civil preparedness emergencies (i.e., EOs 7-7000) that were unexpired and in effect as of September 8. With certain exceptions, EO 9A established an expiration date of November 9, 2020, for all such orders.

On November 9, 2020, the governor issued EO 9L, which generally extends, through February 9, 2021 (unless earlier modified or terminated by the governor), COVID-19 executive orders that were in effect as of November 9. Under EO 9L, orders scheduled to expire on any other specific date (e.g., January 1, 2021) remain in effect until that specific date.

EO 9L similarly establishes February 9, 2021, as the expiration date for certain orders (unless earlier modified or terminated by the issuing authority or a subsequent EO) issued by any official, agency, department, municipality, or entity pursuant to an unexpired executive order. Specifically, it applies to any order, rule, regulation, directive, or guidance that by its own terms provides that it will remain effective for the duration of the public health and civil preparedness emergencies. (EO 9A had established November 9, 2020, as the expiration date for these orders.)

The full text of the orders, including their original expiration dates, may be obtained from the governor's website: [https://portal.ct.gov/Coronavirus/Pages/Emergency-Orders-issued-by-the-Governor-and-State-Agencies](https://portal.ct.gov/Coronavirus/Pages/Emergency-Orders-issued-by-the-Governor-and-State-Agencies).
