

RESPONSE TO COMMENTS

On March 18, 2020, the Connecticut Department of Labor (CTDOL) published on the Secretary of the State's website its Notice of Intent to modify regulations relating to Unemployment Insurance Modernization. A thirty-day public comment period commenced on that date. One individual commented to the posting of the regulation; however, the comment did pertain to the regulation itself. Accordingly, CTDOL has reached out to the individual directly, and no changes to the regulation are required.
