Dear Senator Osten, Representative Walker, Senator Hartley, Representative Dathan, Representative Nolan, and esteemed members of the Appropriations Committee,

My name is Velandy Manohar, MD and I live in Haddam, Connecticut. I stand in support of H.B. No. 6662: An Act Declaring Racism as a Public Health Crisis and Establishing the Commission on Racial Equity in Public Health.

I couldn't get this one out yesterday because I simply ran out of time after planning, preparing, and mailing out three e-mails yesterday in support of HB 6662 which took several hours.

I would like to please call attention to two very relevant posts on my professional website where item #9 of the resources mentioned page 1 of the first letter and attached to the email:

#9 [Responce2RecentEvents This relates to violence towards unarmed Black males.](#)

To the left side of the body of this post is a list of all my post on this website.

It so happens the first one is this specific document on Violence to towards Black Males and the last one is entitled Martin Luther King Tribute.[Originally written an submitted at the time of the inauguration of the glorious evocative memorial ot Dr Martin Luther King Jr, entitled, " From the Mountain of Despair a Stone of Hope and engraved in magnificent sculpture of Dr. King defiantly with resolve looking across the Lagoon at the memorial of POTUS III whose estate housed the Biracial society he was absolutely opposed to yet caused to be created. His resolve and scarific ereulte din th CRA and the VRA to be enacted. It is this legacy of E Pluribus Unum that our Republic must represent that we must preserve and enhance in every breathe we take, every word we utter and every action we plan and undertake. The Arc of the Moral Universe does not bend towards justice on its own accord... [Speech at Riverside Church and Letters form Birmingham Jail]

This post on Dr. Martin Luther King Jr has specific information on the extremely tenuous tortuous and unremitting struggle the United States has been witnessing as it tries to figure and establish initially a just and equitable Bi-Racial Society rom the time of our Founding fathers- I written specifically about the turmoil that went on in Monticello which clearly demonstrates he never wanted to establish a Biracial Society even though with his ongoing relationship with Ms. Sally Hemming he was helping to create biracial individuals who lived and slaved for in Monticello. I have explored the impact of the very popular ideas based on Eugenics and racial Branding. I reference the urgency of the messages Dr. King Jr penned while in the Birmingham Jail.

The next post has direct relevance to the essential life and death matters that have poisoned and continues to create major upheavals, including the Jan 6, 2021 insurrection that sought to overthrow by force the Legislative Branch of the United States Govt., the body politic of our Republic founded on the principle of E Pluribus Unum that this Bill HB 6662 will begin to address in systematic, fact based, meticulous manner over a period of time.
