

Testimony in Support of HB 6441

The Governor's Act Concerning Climate Change Adaptation includes several proposals which provide municipalities with funding tools to better respond to the impacts of climate change and enables a Municipal Funding Option.

Dear Senator Cohen, Representative Borer, and members of the Environment Committee,

Land conservation and stewardship is a major component of Hartland. Providing our town with the Municipal Funding Option would give us another important avenue for continued conservation and protection of our lands and water resources that so many people of Connecticut depend on.

Adoption of the Municipal Funding Option program by towns is optional, and it costs the state nothing.

Please support HB 6441 and give our community the opportunity to decide whether to establish this funding program.

Thank you in advance for your support.

Sincerely,

Susan C. Murray; Hartland, CT
