Re: Support for HB 6441

Dear Senator Cohen, Representative Borer, and members of the Environment Committee,

I'm writing to ask that you support **HB 6441** which provides municipalities with tools to fund climate adaptation and resilience projects, following the recommendations of the Governor's Council on Climate Change.

I especially support **Section 3** of the bill which provides municipalities with an option to establish a buyer's conveyance fee to fund land stewardship, climate resilience, and other environmental projects in our community. In Chester, we could use these funds to support local projects including: land conservation and trail stewardship.

Adoption of the program by towns is optional, and it costs the state nothing.

Please support HB 6441 and give our community the opportunity to decide whether to establish this funding program.

Sincerely,

Charles Tracy
