Testimony of E4TheFuture on SB 882, An Act Concerning Climate Change Mitigation And Home Energy Affordability

On behalf of E4TheFuture, which is a national non-profit dedicated to assisting energy efficiency, equity and clean energy nationally but also working extensively in CT, I would like to provide my testimony in support of Bill No. 882 and Bill No. 863.

Our primary focus is on Bill No. 882 which presents strong support for clean energy targets and energy efficiency resource support. Our only suggested modification is to add a clarifying sentence to section 2 (b): "...and do not duplicate or conflict with the existing programs authorized pursuant to section 16-245 of the general statutes."

Sincerely,

Stephen Cowell
President
E4TheFuture
