SB-883

AN ACT CONCERNING THE RECOMMENDATIONS OF THE
GOVERNOR'S COUNCIL ON WOMEN AND GIRLS.

As Amended by Senate "A" (LCO 8539)

House Calendar No.: 491

Senate Calendar No.: 301

OFA Fiscal Note

State Impact: None

Municipal Impact: None

Explanation

This bill requires the State Elections Enforcement Commission to amend the Citizens' Election Program (CEP) to permit expenditures for certain child care services. Expanding permissible expenditures to include child care services has no fiscal impact as the bill does not alter grant awards to qualified candidates.

The bill also requires the Department of Administrative Services (DAS) to create a system for individuals to electronically submit their name for consideration to be a member of a board or commission. This system must be on the state's website with information about membership requirements. DAS shall create, maintain and make the website accessible to the public. This has no fiscal impact as DAS has the information technology staff to handle these responsibilities.

The bill also requires the Secretary of the State to publish a report on the gender and racial composition of certain state boards and commissions and to compare this information with the state's gender and racial composition. This has no fiscal impact.

Senate "A" requires that DAS maintain the online system on the state, rather than the department, website, and adds the provisions on (1) the U.S. census population data; (2) appointee education and outreach strategies; and (3) data maintenance, analysis, and reporting by the secretary of the state. Senate "A" has no fiscal impact.

The Out Years

State Impact: None

Municipal Impact: None

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
