Explanation

This bill makes various changes to the statutes pertaining to public health.

The bill requires the public health commissioner, by January 1, 2022, to revise marriage license applications and certificates to replace references to "bride" and "groom" with "spouse one" and "spouse two". The one-time cost of replacing the state's supply of marriage license/certificate forms and distributing the new forms is less than \$5,000. Certain municipalities utilize electronic systems for the completion of the marriage license/certificate. These systems will need to be updated, the cost to do so, if any, is anticipated to be minimal.

Senate "A" strikes the original bill and its associated fiscal impact, thus becoming the bill with the above referenced fiscal impact.
