

Hello, my name is Kim Adamski, I'm a resident of West Hartford.
I'm calling on the Connecticut GA's Human Service committee to support SB956, which would expand access to the HUSKY healthcare program for all CT residents regardless of immigration status. Most immigrants in CT have no access to healthcare, which in a pandemic is a especially public health crisis, and even in normal times, inhumane. I urge our Human Services committee reps to call SB956 for a vote in the Human Services Committee. Our Immigrant community needs healthcare and this is an important bill. Will you please let them know this? Thank you.

Kim Adamski
