

Please VOTE NO to SB-842 !!

We in Connecticut can not lose any more Middle Class jobs that Pay well. My employer would love to get rid of another expense for having employees either by a layoff or just move out of State all together. Why do we want to keep making it harder for Big and Small Companies to do work in Connecticut? The worker in Ct are all ready taxed more than most of the Country already and to add another tax just to give it away and do nothing to help the working people is a same on you. When will we learn that we can not keep taking other peoples money and give it away. We have already lost a lot of Companies, Employees (GE-who the Governor said would never leave, Left)

Why do we want another Government Run Program that will be over burden and under assault?
