

No to S.B. 842

I would appreciate if Democrats would stop growing the Government, A medicare run healthcare is not good for Ct or America, listen to what the Republicans have to say and what their plan offers, the free markets and is what made America the best country in the world, we are losing that no thanks to Democrats, one day you will wake up and explain to your kids that you were part of the destruction across the board.

Connecticut has had a Democratic majority in both houses for more then 48 years and that's why this state comes in last in everything and that's why people are running from this state, wake F up.

Vote no on State run healthcare.

Philip Balestriere
