

Please do not vote for any "Public Option" healthcare bill. The ACA law has cost me tens of thousands of dollars, and horrible service. I am a small business owner, and I make just enough to get no benefit, but pay the ridiculous bill! We don't need more government run healthcare, we need affordability for all. And that also means that even those in lower income brackets need skin in the game as well. "Free" , never is. We will all get the bill, and get zero service. Just like the ACA

Sincerely,
Edward Boughton
