

Dear Representatives of Connecticut Citizens,

Please reject Government run health care! Though many of you, historically, by party affiliation, embrace bigger government, it is not too late to turn back to a more sensible, fiscally sound model.

For the good of all of our children and all we collectively hold dear, please reject this ruinous plan.

Thank you, heartily, to Senators Dan C. and Kevin K. for bringing this important issue to our attention. God bless us, Everyone!

Best,
Susan Boyce
