

Dear Sir or Madam,

Please do not approve SB 842.

Doing so will only harm the workers and employers in Connecticut.

Thanks to Obama Care 25% of my wages go to an unaffordable healthcare plan in Connecticut.

Coupled with high taxes and the cost of living in Connecticut it will soon be time to close up here and move.

Can Connecticut State and local government continue to lose business and personal taxes?

I believe the numbers of State workers to be somewhere around 50 thousand for a population of 3.5 million, 50 percent too many....

The largest employer in Connecticut that produce nothing.

Why am I paying for State employees the benefit of medical insurance, retirement and union perks when I can't even afford my own?

Please stay out of the insurance business, you have done enough harm to all working class citizens.

Thank you,

David Branscombe owner/member
