

Regarding Proposed Senate Bill # 842:

With all due respect, I would like you to STOP trying to micromanage everything! You (collectively) do NOT know more about the citizenry than the citizens, and I/we enjoy the healthcare I/we have chosen, and pay for without your interference, no matter how well-intentioned you may believe it to be.

Hard-working citizens want the FREEDOM to manage their own affairs, without your collective thumbs on the scale.

Respectfully -

Thomas F. Callinan
Norwich, CT
