

I am opposed to this proposed bill. It can only serve to further destroy the economy, health and well being of this state and its residents by putting many more people out of work and raising taxes yet again. As if the damage of covid isn't enough, this is just adding insult to injury. The middle class can not afford any more tax burden. Stop bleeding us dry, stop putting people out of work. Try working toward recovery and healthy state with good jobs and lower taxes.

The proposal would:

- Kill good-paying private sector insurance jobs in our state
- Raise the cost of private and employer health insurance
- Force people onto Medicaid
- Put Connecticut taxpayers on the hook to pay for the government-run program's future losses.
