

The idea of having the government take over healthcare is abhorrent. The United States has the best healthcare in the world. Get back to the problem you are trying to solve...making sure everyone has access to quality, timely healthcare. Solve for the relatively low percentage of folks unable to afford healthcare; I am all for that.

Having the government determining what a patient and doctor can decide is just a travesty. Fix the problem, don't wreck the whole system.
